

# YOUR PHARMACY BENEFITS

**NAVITUS**

Our business is **personal**

## Welcome to Navitus

We understand that access to affordable medications can be life changing - and lifesaving. Our mission is to help members like you get the medications you need.

Once your pharmacy benefits are active, here's how you can make the most of them:

**Provide your prescription card when you fill a medication.**

This will ensure that your pharmacy benefits are processed seamlessly.

**Use our member portal to access your benefits.**

Find the nearest network pharmacies, cost of your medications, access your digital ID card, review plan details such as deductibles and out-of-pocket maximums and more. To get started, go to **[memberportal.navitus.com](https://memberportal.navitus.com)**.

**Still have questions?**

As a Navitus member, you have peace of mind knowing that we are here to support your health journey. Our dedicated Customer Care team can help if you have questions about your pharmacy benefits. They will work to resolve any concerns quickly and can be reached at the number on the back page.

## Saving Money on Your Prescriptions

One of the best ways to lower your prescription expenses is by choosing generic drugs. Generics are clinically identical and just as safe as their brand-name counterparts. They go through the same rigorous U.S. Food and Drug Administration (FDA) process as brand name drugs. To get started simply ask your prescriber if a generic is available for your prescription.
