Submitting expenses and filing claims

FSA Member Portal allows you to enter new claims and expenses, as well as view and edit pending claims. If you have receipts or documentation to substantiate your claim, you can attach these to expedite the reimbursement process.

What is the difference between a claim and expense?

- **Claim.** Claims are simply reimbursement requests submitted for costs incurred when receiving eligible services, products, or procedures.
- **Expense.** Expenses are used to track & manage your medical, dental, vision, prescription, and other potentially eligible expenses. Expenses can be manually entered by you. Once entered, expenses can be submitted for reimbursement (just like a claim). Expenses can be submitted now or later.
Submitting a claim
To enter a claim and request reimbursement, navigate to the add claim page (by clicking submit claim or via the menu bar) and complete the form. Be sure to upload a receipt image if you have one. You can click browse to navigate to the file, or you can drag and drop from your computer. Click submit to send the request for processing.

Send payment directly to your service provider. When entering a claim, you can choose to have the reimbursement funds sent directly to you, or you can have payment sent directly to your provider (on your behalf).

If you pay a provider, choose your provider name from the dropdown menu. If you don’t see your provider listed, select add new provider record to add your provider.
Viewing claims and expenses

Once entered, claims and expenses can be viewed on the *claims list* page. From here, you can view claim status, attach receipts, and request reimbursement for eligible expenses.
Resolving pending debit card transactions

If you swipe your debit card for eligible products or services, you may be required to submit a receipt or other documentation before the debit card transaction can be approved. To aid in resolving pending debit card transactions, you can take the following action:

- **Step 1.** Navigate to the transactions page.
- **Step 2.** Located the pending transaction (using the search filters)
- **Step 3.** Click to expand the transaction, and click *add receipt* to attach your supporting documentation to the transaction.

We will review the documentation you’ve submitted and update the transaction accordingly.
